### **Introduction**

The workshop was held August 14-16, 2012, at NOAA's National Climatic Data Center in Asheville, NC. Participants from NOAA National Data Centers, USGCRP/NCA/GCIS, CICS, ORNL, CEOS, NASA and USGS, shared information about systems, tools, techniques, standards use and common concerns. Workshop goals included knowledge transfer, identification of best practice approaches to addressing shared problems, and identifying specific opportunities for coordination and collaboration between agencies.
